

Pro/Leg

13 November 1978

NOTE FOR THE FILE

FROM :
Assistant, Legislative Counsel

SUBJECT: Section 123, Title I, S. 2525, Intelligence Charter Legislation

The undersigned spoke with OGC, with regard to subject charter provision. During my review of Title I, I noted that section 123 has been retained albeit modified by the Charter Working Group. This particular provision has been the subject of close scrutiny by a "study group" subcommittee established by the Working Group Chairman (Anthony A. Lapham) and charged with carefully examining section 123 with a view to developing a recommendation regarding its inclusion in the charter legislation. [Note: the "study groups" findings are contained in a separate memo in our Title I file]. I asked Bill if the interlineations made to section 123 as appeared in the 1 November 1978 are "firm." Bill indicated that he was now taking another look at the provision which, according to Bill, is now subject to change. I indicated that I would include such a caveat in my analysis.
